

The role of media value Education

The use of social media in education helps students, teachers, and parents to get more useful information to connect with learning groups and other educational systems that make education convenient. Social network tools afford students and institutions with multiple opportunities to improve learning methods.

Value-based education is essential to develop an individual and help him/her live long in many ways: it gives a positive direction to the students to the students to shape their future and even helps them to know the purpose of their life. Value education also helps the students to become more and more responsible and sensible.

Media may refer to communication communication tools used to store and deliver information or data.

Print media: newspapers, magazines, books, and other printed material & Electronic media: Radio, Television, Internet, Cinema, etc. Media is everywhere; it has become a part of our daily life. The process media plays a dominant role in the learning process. Media has potential to shape personalities, change the way we perceive and understand the world, and our immediate reality. The role of print media in the process of education is of special importance.

Print media like newspapers, journals, and magazines are the basic oldest channels of channel of communication between one person to another.

Dr. APJ Abdul Kalam's For enlightened citizens
